Tindahan Manager — Step-by-Step User Guide

STEP 1 — Add Your Products First (Inventory Tab)

Click the 📦 Inventory tab.

Fill in the following product details:
• Product Name — e.g. Chippy BBQ 110g
• Cost Price — how much YOU paid for it (e.g. ₱18.00)
• Selling Price — how much you sell it for (e.g. ₱25.00)
• Stock Quantity — how many pieces you have
• Category — Snacks, Beverages, etc.
Click ➕ Add Product.
Repeat for all your products.

STEP 2 — Record Your Grocery Trip (Grocery Cost Tab)

Click 🛒 Grocery Cost tab.

For each item you bought, fill in:
• Product Name
• Quantity Bought — how many pieces/packs
• Total Amount Paid — the full amount you paid for that item
• Unit — piece, sachet, pack, etc.
• Category
Click ➕ Add Item — the system auto-computes cost per unit.
Repeat for all items.
When done, click 💾 Save to Inventory — all items go straight to your inventory automatically.

STEP 3 — Set Selling Prices (Pricing Tab)

Click 💰 Pricing tab.

Fill in:
• Product Name
• Cost Price per Unit — from your grocery receipt

• Desired Profit Margin % — e.g. type 30 for 30% profit
• Quantity in Stock

The system will show:
• Selling Price — the exact price to charge customers
• Markup Amount — how much you added on top
• Profit Margin % — your profit percentage
• Net Profit per unit — peso profit per item sold
Click 💾 Save to Inventory to apply the price.

STEP 4 — Record a Customer Sale (Sales Log Tab)

Click 📝 Sales Log tab.

Under 'Record a Sale':
• Select the Product from the dropdown.
• Enter the Quantity they want to buy.
• The Price Each auto-fills from your inventory.
• Subtotal computes automatically.
If they buy multiple items → click ➕ Add Another Item.
Type the Customer Name (optional — e.g. Ate Rosa).
Type the Amount Tendered (cash they gave you).
Change computes automatically.
Click ✅ Complete Sale.
A receipt appears automatically and the sale is saved.

STEP 5 — Check Your Dashboard (Dashboard Tab)

Click 📊 Dashboard tab.

You will see:
• Total products in stock
• Today's total sales revenue
• Today's net profit
• Recent transactions
You can also perform a ⚡ Quick Sale directly from the dashboard.

STEP 6 — View Reports (Reports Tab)

Click 📈 Reports tab.

You will see:
• Total revenue (all time)
• Total profit (all time)
• Total amount spent on groceries
• Best Selling Products — ranked by units sold
• Daily Sales Summary — per day breakdown

📝 How to Edit a Product (All Options)

Go to 📦 Inventory tab → find your product in the list:

What to Edit	How
Selling Price	Click 📝 button → type new price → press OK
Delete Product	Click 🗑 button → confirm
Update Stock	Re-add via ➕ Add Product with same name — stock adds up
Cost Price	Go to 💰 Pricing tab → enter product name + new cost → Save to Inventory
Selling Price via Pricing	Go to 💰 Pricing tab → enter new margin → Save to Inventory
Batch Edit Prices	Go to 💰 Pricing tab → Batch Pricing table → change margin % → click ✅ Apply
